If you have questions or would like to make an appointment, please call our office at

636-344-3333

2018-2019 Flu Clinic Update
WUCA O'Fallon Pediatrics

Please take note of the following changes in our flu clinic policies and procedures:

- We will offer the flu vaccine *by appointment only* or during a *regularly scheduled well child appointment*. If a sibling is in need of a flu shot, you must make a flu shot appointment near the time of the other child's visit. We will *not* give siblings a flu shot unless they have their own flu shot appointment. In addition, *no flu shots will be given to parents*
- Flu vaccines will be given by injection; we will *not* be offering nasal flu vaccines
- Flu vaccines should be given annually starting at 6 months of age. If your child is under 9 yrs of age and has not received 2 doses of the flu vaccine before July 1, 2018, they will need to have 2 doses (spaced one month apart) this season
- Flu vaccine will be available September 19 through December 1, 2018. *We will have limited stock, so you are encouraged to schedule appointments ASAP*
- Please be advised that your child must have had a well exam in the last 12 months in order to schedule a flu vaccine appointment
- If possible, please complete our flu vaccine questionnaire/consent prior to your visit. You can download a copy via our website or Facebook
- Flu shots will also be available through the Health Department or any retail health clinic (such as CVS or Walgreens)

We want everyone to remain healthy this flu season! If you have any questions, please do not hesitate to call our office at 636-344-3333.

WUCA O'Fallon Pediatrics
2018-2019 Vaccine Screening Questions/Consent

Patient Name _____ **Age** _____

Date of Birth _____ **Today's Date** _____
